

Renewable and Sustainable Energy Engineering

No	Subjects
1	General Physics
2	Electrical circuits (1)
3	Engineering drawing
4	Introduction to renewable energy
5	Electronics (1)
6	Electronics lab
7	Energy measurement and control devices
8	Laboratory of energy and control measuring devices
9	Laboratory of renewable energy sources
10	Solar thermal systems
11	Design of renewable energy systems
12	Photovoltaic power systems
13	Occupational safety
14	Wind power systems
15	Laboratory of solar energy systems (1)
16	Laboratory of wind power systems
17	Energy saving techniques in buildings
18	Solar System Operator (2)
19	Electrical circuit laboratory
20	Differentiation and Integrity
